

Don't do your
green work
in secret.

Share it
across
campus!

The Society for College and University Planning's

Campus Sustainability Day

October 25 Webcast

We'll be sharing comprehensive case studies about how the following campuses are integrating sustainability in operations, policy, resource planning, and curriculum:

- **Arizona State University**
- **Grand Valley State University**
- **Harvard University**
- **Pima Community College**

We urge you to get a big space and invite people from all departments, all disciplines, even from across the campus edge to share—poster sessions, demonstrations, pre- or post-webcast panels—and make the 2006 Campus Sustainability Day a major celebration on your campus.
